LOCAL SQUIBS

The potato warehouse is looking very "warehousish" already. Scotland Neck is coming to the front all the time.

An airship to transfer motorists from the end of the paving on Main Street to the edge of town in Greenwood might make good money.

Mrs. Yandle, Mrs. Walston and Mr. Bishop, all three patients from Scotland Neck at Edgecombe General Hospital, Tarboro, are recovering.

Mr. Eugene Bishop told me yesterday that he has always loved Scotland Neck people, but that he really didn't know that they were so very good as he has learned them to be since his confinement to the hospital.

Paul Fenner says that Enfield is a coming town and Scotland Neck has already arrived. As a citizen of this town, I thank him for the compliment, but I do not fully agree with him. For it seems to me that Scotland Neck is coming all the time. In fact, no town, or person, ever "arrives" in the sense Mr. Fenner meant. To be satisfied, in my opinion, is to be nothing else. Let's continue to go forward.

Eat Again Like A Hungry Child

The work of the stomach is to extract the life-giving properties from the food you eat, and these properties are distributed through the body by the blood. If the stomach does not perform this work, as Nature intended, the blood suffers and the entire system becomes affected.

The eight different ingredients in TANLAC, the wonderful stomach medicine and system purifier, are so blended that they readily assist the stomach in performing its natural function. Its corrective action will make you eat again like a hungry child.

TANLAC is highly recommended by all leading druggists.
